1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Martin on 5/28/08.

The application has been amended as follows:

Please cancel claim 6.

In claim 29, please replace "about 1 to about 98" with "about 5 to about 15".

This amendment clarifies the weight range in claim 29 since component (b) could never be present in amounts as high as 98 weight percent in view of the amount of component (a) present.

2. The following is an examiner's statement of reasons for allowance: For reasons consistent with that noted of record, the instant claims are neither taught nor suggested by the prior art. The Examiner again stresses the fact that the polymer is "consisting of" the monomers recited. This significantly narrows the scope of the claims. The claims that were withdrawn from consideration have been rejoined, as they depend upon the paraffin inhibitor polymer claims and thus require each limitation found therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 571-272-1090. The examiner can normally be reached on Monday and Wednesday to Friday, 10am to 4pm.

Art Unit: 1796

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
